# *Introducing Davines*

**The Davines mission is to be the best for the world,  
creators of a good life for all, through beauty, ethics  
and sustainability.**

Founded in 1993 by the Bollati family in Parma, Italy, Davines manufactures top quality haircare and skincare products. Davines grew into a culturally diverse global brand. Their focus is on waste reduction, optimization of natural resources and savings of non-renewable resources.

Their humanity and respect for the environment has led the brand to make most of its products carbon neutral.

In 2016, Davines became a B corporation, or Benefit Corporation to use business as a force for good.

After years of dreaming, in the summer of 2018, the Davines Village opened in Parma, Italy, where every product is crafted. The Village is the physical incarnation of sustainable beauty.
